

SEA'S7

Cleaning • Sterilization • Deodorization • Degreasing • Rust Removal
Water Quality Improvement (Wastewater Treatment)

A revolutionary aqueous solution born from
100% natural materials
Safe and reliable for every environment

Cooling Tower Total Improvement
Water-Soluble Coolant Optimization
Workpiece Cleaning
Mold / Tool / Jig Cleaning
Rust Removal
Water Quality Improvement
(Wastewater Treatment)
Elimination of Bacteria
(Including Legionella)
Various Deodorization Applications

Scallop Shell × Mt. Fuji Natural Spring Water

**Multi-Functional
Aqueous Solution**
SEA'S7
STRONG TYPE

Made from 100% natural materials
Scallop shells × Mt. Fuji spring water

COD: 1.1 mg/L
Equivalent to Class AA
lake water quality

No protective equipment required
No strong acids or solvents used

Not a chemical agent / not a detergent
A completely new solution

Seven Corporation Inc.

100% From Natural Ingredients SEA'S7 Multi-Functional Lineup

Cooling Tower & Total Improvement

Solves algae, biofilm, scale, and Legionella bacteria

Pattern ① Add to cooling water

Add SEA'S7
For 1 year
Algae · Biofilm Scale
Does not occur in the fill material

Pattern ② Clean clogged fill spots

Algae · Biofilm

Spray SEA'S7

Algae · Biofilm Effectiveness

《Benefits》
No equipment (chemical pump) required
Continuous cooling efficiency maintenance
Reduced cleaning cost and frequency
Reduced water consumption
No impact on drainage system

Water-Soluble Coolant & Total Improvement

Odor, foaming, and disinfection effect extend coolant life

Add SEA'S7 to the coolant used clogged machine by 10%

- ① Bacteria & Mold Removal
- ② Odor & Foaming Removal
- ③ Pipe System Unclogging

《Benefits》
Prevents coolant degradation
↓
Extends life & Reduces waste liquid

Unmatched Degreasing & Cleaning Power

With natural surface activation effect, it cleans workpieces, tools, and equipment to the core

Oil-Con Almin Fine

Wash away embedded dirt instantly!
Able to shorten cleaning process

Large Chains for Mold Motors

Industrial Parts Washers

Product Name : SEA'S7 - Strong Type
Ingredients : Natural Ingredients (Purified Water),
Hokkaido Todakoman Island Aluminum
Hypoxide Powder
COD : 1.1mg/L
